

## **A Message from Career Services and Parent Career Network Internship Opportunities for USD Students**

Dear USD Parents and Friends:

USD's Career Services offers a single point of contact for organizations interested in recruiting and hiring talented students from the University of San Diego for internships and full time positions. Our goal is to help further increase the experiences our students have before they graduate thereby producing more capable and prepared professional alumni.

The Parent Career Network (PCN) committee is an intermediary of the Parents' Association Board at USD that attempts to locate Torero parents such as you who may be able to assist in providing internship and job opportunities for USD students. In partnership with USD's Career Services, the PCN looks forward to connecting you to innovative career and talent solutions!

On that note we would like to inquire further as to your type of business and if you have any internship or employment opportunities that might be filled by a worthy USD student. If you have listed an intern or job posting with USD before, we thank you and invite you to post again. If not we hope you will join us in doing so this year.
