Dear USD Parents and Families,

University of San Diego offers two unique learning opportunities for high school students to improve their college readiness and accelerate their academic achievement in math, writing, business, science and technology. Students will learn how to create their own opportunities in school, work, and life, while making a difference in their communities! (See below for more information about these programs).

Since your family is already part of the USD family, we would like to extend a 15% Discount through April 30th, 2015! Use the following code when enrolling your student in either program: CODE: 15%ASAP

Enroll your student today! Visit our website or call our Student Support Center at (619) 260-4585.

Sincerely,
Pamela Cappiello
Program Manager
pcappiello@sandiego.edu | (619) 260-4772

**Accelerated Summer Academic Program (ASAP)**

Provide your student with an authentic college experience this summer while they take honors and advanced placement (AP) courses at the USD:

- **YTH-X901** Writing for College
- **YTH-X902** Writing for High School
- **YTH-X905** Geometry
- **YTH-X916** AP Calculus AB
- **YTH-X903** Biotechnology

**Trailblazer to Changemaker (TB2CM)**

Students will learn skills that are not taught in high school, but that are critical to future personal, academic and professional success in today’s ever-changing world:

- Recognize leadership in yourself and others
- Perform goal setting strategies to particular situation or project
- Manage your money (needs vs wants)
- Identify mentors, create advisory
YTH-X920 Cognitive Neuroscience
YTH-X942 Introduction to Programming with JavaScript and HTML5 Browser Games
YTH-X933 Business Bootcamp

Dates: June 22 - July 31, 2015

groups and a trusted network
Lead change and make a positive impact in your life and your community

Dates: August 24 - 28, 2015
